

VIEWPULSE

The procurement partner  
you can depend on

# TRADING WITH INTEGRITY

Viewpulse fulfils the hardware requirements of public and private sector organisations operating in the oil & gas, marine, water and chemical industries.

Viewpulse was established in 1991 bringing together the expertise of its three founding partners. Their background in civil & mechanical engineering, as well as collective experience in equipment supply, commissioning and construction, has shaped the company to become what it is today. Our aim is to be a trusted and reliable procurement partner, working with our clients to help achieve their strategic business objectives.

Based in the UK and with affiliated offices in other regions, we source and supply goods internationally, including Germany, France, Italy, UAE, Pakistan, India, Brunei, Lesotho, Zambia and Algeria. We utilise local knowledge and resources on behalf of our clients, to best effect, wherever in the world we find ourselves working.

*"THE VIEWPULSE ETHOS IS ALWAYS TO PROVIDE SOLUTIONS WITH PROFESSIONALISM, INTEGRITY AND VALUE; OUR LONGEVITY ATTESTS TO THAT."*

**ZAKARIAS RAJA, DIRECTOR**

## ON TIME, ON BUDGET, TO SPECIFICATION

Viewpulse combines specialist industry knowledge with access to a vast international network of manufacturers and commitment to quality. Our robust procurement processes are designed to develop good working relationships with both our suppliers and clients, protecting the interests of all parties involved, to ensure successful completion of every project.

- With over 25 years' experience, we are familiar with all types of requisitioning procedures and have the knowledge to navigate even the most complicated systems.
- We handle all the necessary export paperwork including the negotiation of Documentary Credits, establishment of financial guarantees e.g. Performance Bond Guarantees and manufacturer warranties and indemnities.
- We do not act as agents for any particular manufacturers. Equipment is sourced according to specific client requirements, ensuring that we supply quality goods at the best and most competitive prices.
- All goods and equipment procured on behalf of our clients are inspected for quality, quantity and packaging, both by ourselves and by independent inspectors such as DNV GL (formerly known as Germanischer Lloyd) and Bureau Veritas, prior to shipping.
- All goods are fully insured against loss or damage in transit.
- We organise all aspects of shipping goods to their end destination.
- Where necessary, we will arrange the installation and commissioning of machinery and equipment by the manufacturer.
- Our after-sales service means we can arrange any necessary training required for equipment supplied, along with servicing and repairs.

## SUPPLYING THE OIL & GAS, MARINE, WATER AND CHEMICAL INDUSTRIES

Viewpulse can source and supply a wide range of equipment, plus spare and replacement parts, to projects all over the world, including:

### MARINE

- Electro-hydraulic control systems
- Engine and propulsion units
- Pumps and compressors
- Instrumentation and controls
- Navigation equipment
- Electrical equipment
- Safety equipment

### OIL & GAS

- Steam and gas turbines
- Compressors, pumps, motors
- Generators and transformers
- Process plants and equipment, spares and replacement parts
- Pipes, valves and fittings
- Drilling and wellhead equipment
- Electrical and instrumentation equipment and accessories
- Construction equipment and materials
- Additives and chemicals

### WATER

- Pumps
- Pipes, including S/S, HDPE, LDPE, Ductile and related fittings
- Valves
- Supervisory control and data (SCADA) acquisition systems
- Motor control systems
- Distribution boards
- Gensets
- Cables for power transmission and control
- Water lab equipment
- Structural steel and materials for construction

### CHEMICALS

- Paints and Solvents
- Petrochemicals, Pharmaceuticals and Polymers
- Waste Water Testing
- Laboratory and Scientific consumables
- Pool and Spa, Agricultural and Food chemicals
